

# Contents

Preface .....	ix
Acknowledgments .....	x
<b>Chapter 1: Contemplating the switch to ArcGIS Pro .....</b>	<b>1</b>
Background .....	1
System requirements .....	3
Licensing .....	3
Capabilities of ArcGIS Pro .....	4
When should I switch? .....	5
Time to explore .....	7
Objective 1.1: Downloading the data for these exercises .....	7
Objective 1.2: Starting ArcGIS Pro, signing in, creating a project, and exploring the interface ..	9
Objective 1.3: Accessing maps and data from ArcGIS Online .....	12
Objective 1.4: Arranging the windows and panes .....	14
Objective 1.5: Accessing ArcGIS Pro Help .....	15
Objective 1.6: Importing a map document .....	17
<b>Chapter 2: Unpacking the UI .....</b>	<b>19</b>
Background .....	19
The ribbon and tabs .....	19
Panels .....	20
Views .....	21
Time to explore .....	22
Objective 2.1: Getting familiar with the Contents pane .....	22
Objective 2.2: Learning to work with objects and tabs .....	24
Objective 2.3: Exploring the Catalog pane .....	25
<b>Chapter 3: The project .....</b>	<b>29</b>
Background .....	29
What is a project? .....	29
Items stored in a project .....	30
Paths in projects .....	32
Renaming projects .....	32

Time to explore .....	33
Objective 3.1: Exploring the elements of a project .....	33
Objective 3.2: Accessing properties of projects, maps, and other items .....	35
<b>Chapter 4: Navigating and exploring maps .....</b>	<b>37</b>
Background .....	37
Exploring maps .....	37
2D and 3D navigation .....	38
Time to explore .....	39
Objective 4.1: Learning to use the Map tools .....	39
Objective 4.2: Exploring 3D scenes and linking views .....	43
<b>Chapter 5: Symbolizing maps .....</b>	<b>47</b>
Background .....	47
Accessing the symbol settings for layers .....	47
Accessing the labeling properties .....	48
Symbolizing rasters .....	50
Time to explore .....	52
Objective 5.1: Modifying single symbols .....	52
Objective 5.2: Creating maps from attributes .....	55
Objective 5.3: Creating labels .....	58
Objective 5.4: Managing labels .....	60
Objective 5.5: Symbolizing rasters .....	63
<b>Chapter 6: Geoprocessing .....</b>	<b>67</b>
Background .....	67
What's different .....	67
Analysis buttons and tools .....	69
Tool licensing .....	69
Time to explore .....	70
Objective 6.1: Getting familiar with the geoprocessing interface .....	70
Objective 6.2: Performing interactive selections .....	72
Objective 6.3: Performing selections based on attributes .....	74
Objective 6.4: Performing selections based on location .....	76
Objective 6.5: Practicing geoprocessing .....	77
<b>Chapter 7: Tables .....</b>	<b>81</b>
Background .....	81
General table characteristics .....	81
Joining and relating tables .....	82

Making charts .....	85
Time to explore .....	86
Objective 7.1: Managing table views .....	86
Objective 7.2: Creating and managing properties of a chart .....	88
Objective 7.3: Calculating statistics for tables .....	90
Objective 7.4: Calculating and editing in tables .....	92
<b>Chapter 8: Layouts .....</b>	<b>95</b>
Background .....	95
Layouts and map frames .....	95
Layout editing procedures .....	96
Importing map documents and templates .....	98
Time to explore .....	98
Objective 8.1: Creating the maps for the layout .....	99
Objective 8.2: Setting up a layout page with map frames .....	100
Objective 8.3: Setting the map frame extent and scale .....	102
Objective 8.4: Formatting the map frame .....	103
Objective 8.5: Creating and formatting map elements .....	105
Objective 8.6: Fine-tuning the legend .....	107
Objective 8.7: Accessing and copying layouts .....	109
<b>Chapter 9: Managing data .....</b>	<b>111</b>
Background .....	111
Data models .....	111
Managing the geodatabase schema .....	112
Creating domains .....	114
Managing data from diverse sources .....	115
Project longevity .....	116
Managing shared data for work groups .....	117
Time to explore .....	118
Objective 9.1: Creating a project and exporting data to it .....	118
Objective 9.2: Creating feature classes .....	120
Objective 9.3: Creating and managing metadata .....	122
Objective 9.4: Creating fields and domains .....	124
Objective 9.5: Modifying the table schema .....	126
Objective 9.6: Sharing data using ArcGIS Online .....	128
<b>Chapter 10: Editing .....</b>	<b>131</b>
Background .....	131
Basic editing functions .....	131

Creating features .....	132
Modifying existing features .....	134
Creating and editing annotation .....	136
Time to explore .....	136
Objective 10.1: Understanding the editing tools in ArcGIS Pro .....	136
Objective 10.2: Creating points .....	138
Objective 10.3: Creating lines .....	140
Objective 10.4: Creating polygons .....	142
Objective 10.5: Modifying existing features .....	144
Objective 10.6: Creating an annotation feature class .....	147
Objective 10.7: Editing annotation .....	149
Objective 10.8: Creating annotation features .....	150
<b>Chapter 11: Moving forward .....</b>	<b>153</b>
<b>Data sources .....</b>	<b>155</b>
