Introduction: The joy of uncommon knowledge	1
Uncommon knowledge: little-known explanations to stretch your mind	3
Why Swaziland's king renamed his country	5
Why terrorists claim credit for some attacks but not others	7
How carrots became orange	9
Why the Mediterranean will eventually disappear	11
Why the global suicide rate is falling	13
Who owns what in space	16
Why most refugees do not live in camps	18
Why most countries drive on the right side of the road	20
How domestic violence affects the economy	22
Why school summer holidays are too long	24
Where people most want to emigrate to	26
Globally curious: particular proclivities from around the world	29
Why Australians are divided over kangaroos	31
Why is Finland so happy?	32
Why universities for the elderly are booming in China	34
Why India avoids alliances	36
How California could split up	38
Why Delhi wants to become a state	40
How smog affects spending in China	42

How many Americans believe in ghosts?	44
Why treason cases are so common in Africa	46
Why Australia loses so many prime ministers	48
What is the Northern Sea Route?	50
Resource intensive: oddities and commodities	53
Why donkey skins are the new ivory	55
Why Japan has so much plutonium	57
Why there is a world shortage of vanilla	59
The battle for Colombia's sunken treasure	61
What is Brent crude, exactly?	63
Why China rents out its pandas	65
What a controversial pastry says about China's economy	67
Why Westerners are eating so much more chicken	69
The global rise in houseplants	71
Why it matters if the Caspian is a sea or a lake	73
Sexual selection: love, sex and marriage	75
Why civil partnerships are becoming more popular, even among straight couples	77
Why expensive weddings are a bad idea	79
How India decriminalised homosexuality	81
How gender stereotypes are built into Mandarin	83
How a typical American birth costs as much as delivering a royal baby	85
The irresistible rise of internet dating	87
Does owning a car, or a TV, mean you have more sex?	89
How young men are changing their definitions of sexual harassment	91
Why the number of abortions in America is at a historic low	93
The persistence of child marriages in Africa	95
Working assumptions: the world of employment	97
Why people are working longer	99

Why so few nurses are men	101
Are gender quotas good for business?	103
What men who make less than their wives say about their earnings	105
How the wage penalty for mothers varies from country to country	107
How English-speaking proficiency varies from industry to industry	110
How many hours do teachers work around the world?	112
Why do some countries work longer hours than others	114
Why Japan is accepting more foreign workers	116
The slow progress towards gender parity in the sciences	118
How NFL contracts give players so little power	120
Why star football managers make less difference than star players	122
By the numbers: economical, with the truth	125
What's in it for the Belt-and-Road countries?	127
What is sustainable finance?	129
How to do the most good possible	131
Why fewer people are using public transport	133
Do "sin taxes" actually work?	135
Why tariffs are bad taxes	138
How Venezuela's hyperinflation compares with previous examples	140
How big companies are making markets less competitive	142
Why economics is the most rational choice of subject at Oxbridge	144
The Australian economy's remarkable run	147
Criminal activity: laws and justice around the globe	149
Why support for the death penalty is rising again in America	151
Why Supreme Court justices serve such long terms	153

Why opium and cocaine production has reached record highs	155
Why Mexico's murder rate is soaring	157
Where and how most of the world's gun deaths occur	159
How horse-doping works	161
What is Interpol?	163
Why "spice" is worse than other drugs	165
What are <i>zina</i> laws?	167
What is an undeclared intelligence officer?	169
Why is the American sheriff such a polarising figure?	171
What is the GRU?	173
Which countries lock up the most journalists?	175
Medically speaking: health, death and disease	177
Why death is getting harder to define	179
What is Disease X?	181
Why STDs are on the rise in America	183
The link between cultural participation and well-being in later life	185
Why Americans are sleeping longer than they used to	187
Smartphones and the rise in loneliness among the young	189
What is resignation syndrome?	191
How genetic engineering could wipe out malaria	193
Why was the flu of 1918 so deadly?	195
What is vaccine-derived polio?	197
Green scene: environmental matters	199
Why is so much of the world's coral dying?	201
Why aren't all commercial flights powered by sustainable fuel?	203
Why has shipping been slow to cap emissions?	205
Why Delhi is so polluted	207
How the bald eagle soared again	209
Why wildfires are in decline, despite global warming	211
Which countries will produce the most waste in future?	214

How modern bio-energy helps reduce global warming	216
How rainfall affected the fate of Roman emperors	218
Speaking geek: science and technology	221
How animals use the Earth's magnetic field to navigate	223
Why the far side of the Moon isn't dark – but is so unknown	225
How to collect space junk	227
What are hypersonic weapons?	229
How aircraft avoid mid-air collisions	231
Why Uber's self-driving car killed a pedestrian	233
Why Python is becoming the world's leading programming language	235
What is "shadowbanning"?	238
How YouTube deals with inappropriate videos	240
How much is Google worth to you?	242
Will wearable devices make us healthier?	244
