BOOK ABSTRACT	33
CHAPTER 1	
INTRODUCTION: TOURISM DESTINATIONS IN CHALLENGING TIMES	35
FRANCISCO FEMENIA-SERRA	
AURKENE ALZUA-SORZABAL	
ZHENG XIANG	
References	43
CHAPTER 2	
REFLECTING ON THE IDEOLOGY OF A MECHANIST ECONOMIC SCIENCE: FROM ONTOLOGICAL INCONSISTENCIES TOWARDS A TRANSFORMATIVE TOURISM SCIENCE	45
MATTHIAS FUCHS	
I. Introduction	46
1.1. <i>The ontologies of modern science</i>	47
II. Ontological discrepancies of contemporary economic science	48
2.1. <i>Economic science's implicit ethics</i>	50

	<i>Página / Page</i>
2.2. <i>Economic science and creativity</i>	50
2.3. <i>Economic science's illusory market equilibria</i>	52
III. Elements of a post-mechanist economic theory	52
IV. The innovative region and lifestyle entrepreneurship in tourism	56
4.1. <i>The innovative region</i>	56
4.2. <i>Lifestyle entrepreneurship in tourism</i>	58
V. Conclusion	60
5.1. <i>Summary and discussion</i>	60
5.2. <i>Propositions for a transformative tourism science</i>	62
5.3. <i>EU's post-COVID transition pathway for tourism</i>	66
References	68
CHAPTER 3	
FROM THEORY TO PRACTICE: PUBLIC POLICY IN SMART DESTINATIONS	81
ALFONSO FERNÁNDEZ-TABALES	
LUIS GALINDO PÉREZ DE AZPILLAGA	
CONCEPCIÓN FORONDA-ROBLES	
I. Introduction	82
II. Background	82
2.1. <i>Evolution of public policies in destination management</i> ...	82
2.2. <i>Entities that participate in the design and development of SDs</i>	86
2.3. <i>Standards as an innovative element in public management</i>	88
III. Methodology	90
IV. Results	94
4.1. <i>Focused on people</i>	96
4.2. <i>Focused on the destination</i>	97
4.3. <i>Focused on design</i>	98
V. Conclusions	99
VI. Acknowledgments	101
References	101

CHAPTER 4	
SMART TOURISM DESTINATIONS AND COVID-19	107
ANA-BELÉN BASTIDAS-MANZANO	
LUIS-ALBERTO CASADO-ARANDA	
JUAN SÁNCHEZ-FERNÁNDEZ	
I. Introduction and objectives	108
II. Smart Tourism Destinations (SDs): Evolution and cases	109
2.1. <i>Tourism and its Link with Technology and Economic Growth</i>	111
2.2. <i>Examples of SDs in Spain</i>	113
2.2.1. <i>Barcelona</i>	114
2.2.2. <i>Málaga</i>	115
2.2.3. <i>Santander</i>	116
2.2.4. <i>Benidorm</i>	117
III. Methods	118
IV. Results and Discussion	119
4.1. <i>COVID-19 and Tourist Behavior</i>	120
4.2. <i>COVID-19 and Sustainability</i>	121
4.3. <i>COVID-19, Technology and Innovation</i>	123
V. Conclusions	124
5.1. <i>The tourism of the future: The coronavirus stage</i>	124
5.2. <i>The role of SDs in the COVID-19 era</i>	126
References	128

CHAPTER 5	
BUILDING SUSTAINABILITY IN SMART DESTINATIONS: APPLICABILITY OF A MANAGEMENT MODEL FOR THE CASE OF SPAIN	137
GINESA MARTÍNEZ DEL VAS	
CARLOS ROMERO-DEXEUS	
MIGUEL PUIG-CABRERA	
ABRAHAM NUEVO-LÓPEZ	
I. Introduction	138

	<i>Página / Page</i>
II. The Smart Destination model of Spain	140
2.1. <i>An overview of the SEGITTUR Model of Smart Destination</i>	140
2.2. <i>The Smart Destination process based on SEGITTUR Methodology: sustainability as a key factor in current and future tourism governance</i>	143
III. A proposal for Sustainable and Smart Tourism Development based on the SEGITTUR methodology	145
3.1. <i>Description of the SEGITTUR methodology: a sustainable approach</i>	146
3.1.1. Sustainable Tourism Policy	148
3.1.2. Conservation and improvement of cultural heritage	148
3.1.3. Environmental Conservation	148
3.1.4. Socio-economic development and circular economy	148
3.2. <i>The application of the SEGITTUR methodology: sustainability in terms of population size and territorial typologies within the SD transformation</i>	149
IV. Applicability of the SEGITTUR methodology on Spanish destinations: practical implications	149
4.1. <i>Population size of Spanish Smart Destinations and sustainability: a positive or a negative correlation?</i>	149
4.2. <i>Sustainability and typology of tourism systems within the process of SD transformation</i>	151
V. Conclusion	155
References	156

CHAPTER 6

ENHANCING THE UNDERSTANDING OF TRAVEL BEHAVIOUR AND RISK PERCEPTION TO ADVANCE THE MANAGEMENT OF DESTINATION RESILIENCE

BASAGAITZ GUEREÑO-OMIL
GIUSEPPE ALIPERTI

I. Introduction	168
------------------------------	-----

	<i>Página / Page</i>
II. Destination management and tourism segmentation: The role of travel motivations and travel risk constraints	170
2.1. <i>Travel motivations</i>	170
2.2. <i>Travel risk constraints</i>	171
III. Methodology	173
3.1. <i>Geographical area of the study: Gipuzkoa (Euskadi, Spain)</i>	174
3.2. <i>Data collection procedure and sampling</i>	175
3.3. <i>Sociodemographic characteristics of the sample</i>	176
3.4. <i>Research Instrument and measurement of the variables</i> ..	176
3.5. <i>Data analysis</i>	178
IV. Results	178
4.1. <i>General comments</i>	178
4.2. <i>Cluster analysis</i>	180
4.3. <i>Cluster 1. "The Fearful"</i>	182
4.4. <i>Cluster 2. "The highly motivated"</i>	183
4.5. <i>Cluster 3. "The Calm"</i>	183
V. Discussion and Conclusions	188
References	190

CHAPTER 7

METHODOLOGY FOR STRENGTHENING LOCAL GOVERNMENTS: THE CASE OF THE "REFERENTIAL GUIDE FOR TOURISM MANAGEMENT OF CULTURAL HERITAGE" IN THE PROVINCE OF BUENOS AIRES (ARGENTINA)

GABRIEL COMPARATO
MAURO BELTRAMI

I. Introduction	198
II. Referential Guide for Tourism Management of Cultural Heritage (RETURPAC)	199
III. Process of design and execution of the tourist and heritage policy	202
IV. Municipalities	204
V. Conclusions: theoretical and practical reflections	208
References	211

	<i>Página / Page</i>
CHAPTER 8	
SUSTAINABILITY AND CLIMATE ADAPTATION USING SMART TECHNOLOGIES IN THE EVENT INDUSTRY	215
SMITA SINGH	
ERIC D. OLSON	
I. Introduction	216
II. Triple Bottom Line Approach for reasons of adaptation	217
2.1. <i>People and Profit</i>	218
2.1.1. Resilience through measures	219
2.1.1.1. Adaptation and rescheduling of events	219
2.1.1.2. Forecasting and continuous monitoring	220
2.1.1.3. Education and Awareness	221
2.1.1.4. Infrastructural improvements	221
2.2. <i>Planet</i>	222
2.2.1. Travel	222
2.2.2. Food Wastage	223
2.2.3. Collateral Wastage	223
2.2.4. Single-Use Plastics	223
III. Sustainable Event Management and its Relevance	224
IV. Smart Events and Smart Technologies	227
4.1. <i>Smart Events (Bustard et al., 2019)</i>	227
4.2. <i>Upcoming Smart Event Technologies and Sustainable Impact</i>	227
4.2.1. Radio Frequency Identification (Stein, 2019) ...	227
4.2.2. Facial Recognition Technology (The Vario Team, 2022)	227
4.2.3. Event Chatbots (Cvent Guest, 2019)	228
4.2.4. Augmented Reality and Virtual Reality applications (Social Tables, 2021b)	228
4.2.5. Digital Floor Mats (Sorrells, 2013)	229
4.2.6. Indoor Wayfinding (Mckinley, 2016)	229
4.2.7. Smart Venues (Swisher, 2019)	230

V. Sustainable Impact due to Smart Event Technologies	230
5.1. <i>Reduction in wastage of paper</i>	231
5.1.1. Event Apps and Web-Based Registration softwares	231
5.1.2. Building Eco-friendly digital booths and Digital Signages	232
5.2. <i>Reduction in travel carbon footprint through transportation and telepresence</i>	233
VI. Conclusion	234
References	235

CHAPTER 9	
NATURE-BASED SOLUTIONS: COMPLEMENTING ECOTOURISM'S CONSERVATION, SUSTAINABILITY, AND ECONOMIC OBJECTIVES	247

ANNA PHELAN
LISA RUHANEN
JAMIE MURPHY
LEONIE BOWLES

I. Introduction	248
II. Nature-based Solutions (NbS)	249
III. NbS in Tourism	252
IV. Applying a NbS lens to ecotourism	252
4.1. <i>Strong Ecotourism and NBS Alignment</i>	258
4.2. <i>Ecotourism and NBS Alignment</i>	259
4.3. <i>Misalignment</i>	261
4.4. <i>Common Pillars</i>	261
V. Conclusion	262
VI. Limitations and future research	263
References	264

CHAPTER 10

SMART TOURISM AND SMART CITIES: DIGITIZATION AND MAPPING OF CIUTAT VELLA LAND-USE PLAN IN BARCELONA AND MADRID CYCLE TRACK INITIATIVE AS TOOLS FOR DECISION-MAKING	271
ALEXANDRA DELGADO-JIMÉNEZ	
I. Introduction	272
II. Smart tourism and smart cities: challenges and opportunities for urban planning	274
2.1. <i>From Knowledge Discovery in Databases (KDD) to Big Data as the commons for the smart tourism and the smart city</i>	274
2.2. <i>Smart tourism as a tool for smart city: from the right to the city to a data-driven urban planning</i>	277
III. Case studies: Ciutat Vella land-use plan, Barcelona, and Madrid Cycle Track initiative	279
3.1. <i>Ciutat Vella land-use plan: mapping and regulating the touristic pressure in the city centre</i>	279
3.1.1. Background	279
3.1.2. Content and development of the plan	281
3.1.3. Lessons learned from the case study	288
3.2. <i>Madrid Cycle Track initiative: sharing knowledge for leisure and other mobility</i>	289
3.2.1. Background	289
3.2.2. Content and development of the initiative ...	290
3.2.3. Lessons learned from the case study	298
IV. Conclusions	299
References	300

CHAPTER 11

DESTINATION SUSTAINABILITY AND PRICING STRATEGY OF THE TOURIST ACCOMMODATION SECTOR: A RELATIONSHIP UNDERSTOOD FROM THE HEDONIC PRICING PERSPECTIVE	305
LESLIE BRAVO-CHEW DIANA GÓMEZ-BRUNA DANIELA THIEL-ELLUL	
I. Introduction	306
II. Tourist accommodation industry competitiveness from a spatial hedonic pricing perspective	308
2.1. <i>HPM in tourist accommodation industry: internal and external factors</i>	308
2.2. <i>Internal factors: accommodation attributes</i>	312
2.2.1. Location attributes	312
2.2.2. Environmental and other accommodation attributes	313
2.3. <i>External factors: destination-related variables of the environment</i>	314
2.3.1. Destination socioeconomic factors	314
2.3.2. Destination environmental factors	315
III. The importance of sustainability and the public sector for tourism competitiveness. A theoretical approach	316
3.1. <i>Sustainability and tourism competitiveness</i>	316
3.2. <i>The role of the public sector in the configuration of a sustainable environment for stakeholders</i>	318
IV. Sustainability: a key factor in the pricing strategies of tourist accommodation	320
4.1. <i>The importance of measuring sustainability in tourism</i>	320
4.2. <i>Incorporating more sustainability-related external factors into HPM. A proposal for the tourist accommodation industry</i>	323
V. Conclusion	328
References	330

CHAPTER 12	
BIG DATA APPLICATIONS TO IMPROVE TOURISM MANAGEMENT IN DESTINATIONS: THE CASE OF THE HOTEL INDUSTRY IN THE CITY OF BUENOS AIRES	343
MATÍAS BELACÍN	
I. Introduction	344
II. Background and context	346
2.1. <i>The emergence of Big Data and the responses of tourist destinations</i>	346
2.2. <i>Implementing market intelligence techniques in the Buenos Aires Tourism Board</i>	347
III. Methodology and data collection	348
3.1. <i>Methodology</i>	348
3.1.1. <i>Prices, product differentiation and perceived quality</i>	348
3.2. <i>Empirical strategy</i>	350
IV. Data collection	354
V. Empirical results and findings	358
5.1. <i>Results</i>	358
VI. Summary of findings	371
6.1. <i>From data collection to evidence-based public policy</i>	372
6.2. <i>Conclusions</i>	373
References	374
Appendix	378
<i>Thomson Reuters ProView. User Guide</i>	378
