Presentation of the Authors of the Two Volumes.	xi
Introduction	xxi
Angela BARTHES, Catherine CIBIEN and Bruno ROMAGNY	
Part 1. Biosphere Reserves and Sustainable Development Goals: Multidisciplinary Scientific Issues	
Introduction to Part 1	3
Bruno ROMAGNY	
Chapter 1. Man and the Biosphere: A Precursory Program for the Next World	7
Meriem BOUAMRANE and Didier BABIN	
1.1. 1971–2021, the beginnings of sustainable development	7
1.2. Making sure no one is left behind	9
1.3. Identification of gaps, risks and challenges	10
1.4. Valuable lessons learned from the transformation towards sustainable and resilient societies.	11
1.5. Investments that may affect the building of sustainable and resilient societies	11
1.6. Integration of biodiversity within sustainable development policies	12
1.7. Policy recommendations to accelerate progress in building sustainable and resilient societies.	13
1.8. Lessons learned from the Covid-19 crisis and perspectives for biosphere reserves for the next world.	14
1.9. References	15

Chapter 2. Humans and Nature: A Story to be Rewritten	17
Magda BOU DAGHER KHARRAT, Éliane BOU DAGHER and Rhéa KAHALÉ	
2.1. <i>Homo sapiens</i> , a species like the others	17
2.2. <i>Homo sapiens</i> , a nature modifier	17
2.3. The Mediterranean, more than a sea in the middle of the land.	19
2.4. The academic sphere and the action in favor of biodiversity	20
2.5. Biosphere reserves and Sustainable Development Goals.	21
2.6. References	23
Chapter 3. Social Representations, Collective Organization and Mediterranean Biosphere Reserves	25
Angela BARTHES, Bruno ROMAGNY, Jean-Marc LANGE, Lahoucine AMZIL, Roser MANEJA, Mohammed ADERGHAL and Véronique CHALANDO	
3.1. Introduction	25
3.2. Social representations as an exploratory method of prior knowledge.	27
3.3. How can social representations be defined? Some theoretical elements	28
3.4. How can social representations be defined? Central core and peripheral elements	29
3.5. The methodological elements of our study	30
3.6. Study results	32
3.7. Differences and similarities in the social representations of students	36
3.7.1. Social representations relatively shared by students enrolled in France and in Spain	36
3.7.2. Notably different results for the students enrolled in Morocco	36
3.8. Addressing the issue of complexity versus focusing on the environment.	37
3.9. Addressing the collective organization of society versus the recourse to individual action	39
3.10. Conclusion	39
3.11. References	40
Chapter 4. Challenges and Opportunities of Collaborative Research on Biosphere Reserves in the Mediterranean	43
Moustapha ITANI, Salma NASHABE TALHOUK, Wassim EL-HAJJ, Nivine NASRALLAH and Hannah ABOU FAKHER	
4.1. Introduction	43
4.2. Collaborative research.	43
4.3. Beneficial aspects of collaborative research.	44
4.4. Challenges to collaborative research and data sharing	45
4.5. Motives behind collaborative research.	46
4.5.1. Components of collaborative research	46
4.5.2. External components	46
4.5.3. Internal components	47

4.6. The Mediterranean Basin: asymmetries between Northern and Southern Mediterranean countries	48
4.6.1. Economic development.	48
4.6.2. Human and social development	49
4.6.3. Trade and economic integration	49
4.6.4. Scientific contributions and representation	49
4.6.5. Impediments to collaboration across the Mediterranean.	50
4.6.6. Regionalism and conflict.	50
4.6.7. Academic boycotts	51
4.7. Travel limitations	51
4.7.1. Language barriers.	51
4.7.2. Institutional structures promoting collaborative research in the Mediterranean	53
4.8. Conclusion	55
4.9. References	56
Chapter 5. Scientific Tourism in Multi-Labeled Protected Areas: The Ecological Transition and Controversy in the Mountains	61
Mikaël CHAMBRU and Cécilia CLAEYS	
5.1. Introduction	61
5.2. The ecological transition: from the injunctions to the different socio-political and cultural references	64
5.3. The trajectories of governance forms for a scientific tourism project.	66
5.4. The ambiguities related to the touristic development of scientific culture	68
5.5. The environmental paradoxes of a scientific tourism project	71
5.6. Conclusion	73
5.7. References	75
Part 2. Educational Practices Relating to Biosphere Reserves: Balance and Prospects	
Introduction to Part 2	81
Angela BARTHES	
Chapter 6. Teaching How to Produce Differently at a Biosphere Reserve	83
Véronique CHALANDO and Angela BARTHES	
6.1. Introduction	83
6.2. Curricular challenges of teaching how to “produce differently”.	84
6.2.1. Curriculum development model	84
6.2.2. Distinction between agroecology/agro-ecology: the question of the reference materials.	86
6.3. Technical knowledge and political movements	87

6.4. Knowledge conflicts and conflicts of values: the question of direction in the circulation of knowledge	88
6.5. Towards coherent criteria for analyzing agroecological literacy	89
6.5.1. Essential curriculum elements	89
6.5.2. A practical method for measuring necessary curricular links	90
6.6. Case study	92
6.6.1. Biosphere reserves, levers to “produce differently”?	93
6.6.2. The Mont Ventoux biosphere reserve and the agricultural school of Carpentras	93
6.6.3. Case study results	95
6.7. Discussion	96
6.7.1. What curricular coherence should exist for teaching to “produce differently” in the biosphere reserve?	96
6.7.2. The teacher’s posture in relation to agroecology	97
6.7.3. The role of the territory in the implementation of a consistent curriculum	98
6.8. Conclusion	99
6.9. References	99

Chapter 7. The Sustainable Management of Biosphere Reserves: What Are the Challenges for Agricultural Education? 103

Nina ASLOUM, Guillaume GILLET and Laurent BEDOUSSAC

7.1. Introduction	103
7.2. Agroecology, from its emergence to the change of agricultural model	105
7.2.1. Agroecology: an ever-evolving, polysemous concept	105
7.2.2. Agroecology for a real change in the agricultural model?	106
7.3. Social representations	107
7.3.1. The theoretical framework of social representations	107
7.3.2. The structural approach to social representations	107
7.4. Methodology	109
7.4.1. Data collection	109
7.4.2. Populations	110
7.5. Data categorization	110
7.6. Results	110
7.7. Discussion	113
7.8. Conclusion	114
7.9. References	115

Chapter 8. Collective Skills from Partnerships Between Protected Areas and Teachers. 119

Sylviane BLANC-MAXIMIN

8.1. Introduction	119
-----------------------------	-----

8.2. The educational partnership	121
8.2.1. Partnerships in national education	122
8.2.2. A partnership for creating collective professional skills?	123
8.3. Three case studies in a labeled rural territory	126
8.3.1. Descriptions of the projects undertaken in the three case studies	126
8.3.2. Data collection methods	127
8.3.3. Results	128
8.4. Presence of a collective skill and of the collective’s skill	131
8.4.1. Case A in school one	131
8.4.2. Case A in school two	131
8.4.3. Case A in school three	132
8.4.4. Case B	132
8.4.5. Case C	133
8.4.6. Synthesis	133
8.5. Conclusion	134
8.6. Appendix	135
8.7. References	136

Chapter 9. The Instrumentalization of Education in Sustainable Development at the Service of Tourism: The Case of the Arganeraie 141

Salma ITSMAIL and Bruno GARNIER

9.1. Introduction	141
9.2. Environmental crisis and inflation of alternative tourism	141
9.3. Tourism and sustainable development	143
9.4. Sustainable tourism and patrimony: educational issues	144
9.5. Towards a “sustainable strategy”	147
9.6. The Moroccan situation: a sustainable tourism policy in the ABR?	148
9.7. A cultural as well as a natural patrimony item: the argan tree	151
9.8. Between reality and opportunism: the instrumentalization of sustainable development	152
9.9. Education: the missing vector for sustainable tourism	158
9.10. Conclusion	161
9.11. References	161

Chapter 10. Biosphere Reserves and Political Skills Transfer in University Curricula. 165

Melki SLIMANI, Angela BARTHES and Jean-Marc LANGE

10.1. Introduction	165
10.2. Towards a conceptual recontextualization of the political skill in the environmental field	166
10.2.1. Learning eco-literacy and building the disposition towards cognitive socialization in academic disciplines	168

10.2.2. Learning eco-citizenship and building the disposition towards political socialization	168
10.2.3. Learning environmental deliberation and building the disposition towards critical cognitive socialization.	169
10.2.4. Learning in collective action regimes and building the disposition towards democratic socialization	169
10.3. Environmental political skill: Master’s degree in Man and the Biosphere – case study	170
10.3.1. The MAB Programme, political skill and formal curriculum	170
10.3.2. Methodology.	171
10.4. Results and discussion	173
10.4.1. What political skill in the formal curriculum of the MAB master’s degree?	173
10.4.2. What disciplinary contributions to the environmental political skill in the formal curriculum of the MAB master’s degree?	175
10.5. Conclusion: changing curricular morphologies	177
10.6. References	178
Chapter 11. Education and Mediation in the Arganeraie: Alliance Strategies Between Education and Tourism Actors?	183
Saïd BOUJROUF and Abdullah AÏT L’HOUSSAIN	
11.1. Introduction.	183
11.2. Locating the Arganeraie biosphere reserve.	184
11.3. The ABR, a tourist landscape showcased by the media?	184
11.4. ABR landscape imaging and its dissemination	185
11.5. A confusion between education forms in the ABR: formal, non-formal and informal.	186
11.6. Towards mediation in the ABR or the construction of an alliance and communication strategies between education and tourism actors	190
11.7. The territorial integration of the ABR – a condition for the alliance’s success: communication, mediation and media coverage	192
11.8. “Polarized” networks in the ABR: a tool for the alliance between education and tourism actors.	194
11.9. Actor training for the development of capacities: skills and capability for communication management	195
11.10. Conclusion.	197
11.11. References.	198
List of Authors	201
